

**GYROLED®**

**M130**

**CLASS 2**

Advantages :

**NEW!**

- LED beacon R65 and EMC approved
- High brightness R65 Class 2
- 13 flash patterns available
- Polycarbonate dome
- One central LED on Gyroled top for aerial identification

**Technical specification**

ISO version:

- Height 123 mm - diameter 184,5 mm
- Weight : 1,274 kg

Magnetic version:

- Height 146 mm - diameter 193 mm
- Weight : 2,221 kg

- 13 flash patterns
- Cruise function

- Input voltage : 12 - 24V
- Power supply : 22 W maximum
- Operating temperature : -40°C to +85°C
- Protection against polarity reversals
- Consumption : 12V : 1,8 A / 24V : 0,9 A

Optimal thermal control

**Approvals**

**PHOTOMETRY :**

R65 approval:

- Blue Flash : TB2 (E2) 0016105
- Blue Rotating : TB2 (E2) 0016106
- Amber Flash : TA2 (E2) 0016107
- Amber Rotating : TA2 (E2) 0016108

**PROTECTION RATINGS :**

Impermeability: IP 45  
Protection from mechanical impacts : IK06

**EMC :**

« E » marking Regulation R10 N° E2 10R05 16034  
CISPR25 (2008) : class 5 radiated ; class 5 conducted
